Jim,

Yes, I agree that we can take a look when we're on the site. It's always easier or at least better to be on the site than staring at a map!

Laura

Thanks for the email chain Laura,

I don't believe I received any of this information before, and will take a look. Seems like something we can review when we meet on site next week, and can actually inspect field conditions.

Jim

Jim.

Here's the CNDDB form that Erin submitted on the Brittleleaf manzanita stand at KP.

If you wish to confirm this with Todd Keeler-Wolf at CDFG, he will be familiar with the issue and can provide you with any background that you might want regarding management of this stand and its rarity.

Form Returned: CNDDB_FieldSurveyForm.pdf

The attached file is the filled-out form. Please open it to review the data.

Attached please find a survey form for Brittle Leaf Manzanita Chaparral in the Oakland Hills.

Sunday, May 27, 2012 AOL: BEACH127

Please let me know if you have any questions.

Thanks,

Erin McDermott
